

A fashion show to celebrate modern & luxurious designs

Shantanu and Nikhil Mehra with the models showcasing their designs

A star-studded show by fashion designers **Shantanu** and **Nikhil**, a performance by sitar maestro **Shujaat Khan**, an irresistible feast created by chef **Rakhee Vaswani**, and the magnetic presence of **Kabir Bedi** – all this marked the Jaquar Group's Design Excellence event that was recently organised at the brand's global headquarters in Manesar. Various business tycoons from the country's architecture and building development fraternity were present at the event.

Design is a key element of the brand's strategy as it continues to lead the transformation of bathrooms nationwide from a functional space to an aspirational one. Their bathroom solutions brands, Artize and Jaquar, in the luxury and premium categories respectively, are rapidly making inroads into global markets, including the UK, Middle East, Africa and Asia. In fact, the awards won by their products also included the well-known Red Dot Design award for the tailwater faucet, apart from several others.

The event was an opportunity to experience and imbibe the design philosophy of the stars in the spotlight. It was also an opportunity to meet and network with like-minded design professionals, including **Ar Hafeez Contractor**, **Ar Christopher Charles Benninger**, **Ar Sanjay Puri**, **Ar Sanjay Kataria**, **Ar Vivek Gupta**, **Ar Tanuja** and **Sanjay Kanvinde**, and **Ar Rajeev** and **Sabeena Khanna**.

Rajesh Mehra, Director and promoter of the brand, said, "Today's evening is designed to celebrate the spirit of art and the masters who make masterpieces. India is winning accolades for its contribution in the field of art and design excellence. Today, various art connoisseurs meet under one roof to appreciate and enjoy different shades of India's design story."
